Dear Andrew

USE OF DRUG DETECTIVE BY TMPD DRUG ENFORCEMENT UNIT

This Unit has had the pleasure of utilising your Drug Detective field test kits for the past two months and I would like to comment as follows:

1. The test kits have proved to be reliable and accurate, and have proved our suspicion in each case;
2. The test kits are easy to use with no risk to the officer or the suspect and can be utilised in any scenario relating to drugs;
3. There have been no problems when poly drug use is suspected and we have been able to accurately determine all the types of drugs which were used;
4. No factors such as dirty surfaces have influenced the testing and we even had a case where a suspect's hands were covered in grease and we still obtained a positive result for cocaine, which confirmed the suspect's confession regarding his drug use. In another case, the suspect had washed his hands and we again obtained a positive result for two drug types.
5. All the members have indicated their utmost satisfaction with the product and have thoroughly appreciated the practicality and effectiveness of the device.

Thank you for an excellent product.

Yours Faithfully

M.P. NEWHAM
